JULIAN MERCER

EMT

San Francisco, CA | (415) 555-0148 | julian.mercer@email.com | linkedin.com/in/julianmercer

PROFESSIONAL SUMMARY

Nationally Registered EMT with 5+ years on 911 and interfacility ambulance crews. Assesses patients quickly, delivers basic life support, and writes clear patient care reports for receiving hospitals.

PROFESSIONAL EXPERIENCE

EMT Mar 2022 - Present
American Medical Response, Denver, CO

- Respond to 12 to 16 emergency and transfer calls per 12-hour shift, performing assessments, oxygen therapy, and spinal motion restriction.
- Documented patient care reports before the end of each shift, with chart completion rated above the company standard in quality reviews.
- Performed CPR and AED use on cardiac arrests alongside paramedics, contributing to several returns of circulation.
- Precept new EMTs on stretcher handling, radio reports, and scene safety.
- Restock and inspect the ambulance at the start of each shift, including oxygen, monitors, and the stretcher, with no equipment failures on calls.
- Maintained a calm demeanor with family members at the scene, giving them clear information on where the patient was going.
- Wrote narratives that included chief complaint, history, vitals, treatments, and response, and corrected report gaps flagged in the monthly review.

EMT Jun 2021 - Feb 2022
Denver Health Paramedic Division, Denver, CO

- Staffed 911 and event medical coverage at stadium and concert venues, treating minor injuries and heat illness.
- Provided first aid for sports and crowd injuries, with fewer transports because minor injuries were treated on site.
- Supported paramedics on advanced life support calls by preparing IV supplies and monitoring vital signs.
- Completed hospital handoff reports using a structured format that receiving nurses could follow in under two minutes.

EMT Jan 2020 - May 2021
Falck Rocky Mountain, Aurora, CO

- Operated on interfacility and dialysis transport crews, delivering about 8 patients a shift to appointments on schedule.
- Inspected the ambulance and restocked supplies every shift, and the unit passed all state vehicle inspections.
- Maintained calm, clear radio reports to dispatch and receiving charge nurses.
- Helped load and secure bariatric and wheelchair patients safely using lift assist devices.
